

Jupiter Mines Ltd (JMS.ASX)

Shedding light on EBITDA and share of JV profits.

Event:

- Restatement of adjusted EBITDA.

Investment Highlights:

- We have received queries following our initiation report concerning JMS' EBITDA. We have taken the opportunity to clarify the reporting of EBITDA.
- In its prospectus, JMS reported its share of the profit from Tshipi JV above the EBITDA line. This share of profit is JMS' 49.9% share of Tshipi's NPAT, and not its 49.9% share of Tshipi's EBITDA. This was a conservative approach which undercooked the true look-through EBITDA for JMS. It is this non-alignment between Tshipi's and JMS's EBITDA that has caused confusion for some investors. We had adopted JMS' conservative approach in our presentation of EBITDA in our initiation.
- We have now restated our presentation of JMS' EBITDA to more accurately reflect its share of Tshipi EBITDA. We now show JMS' EBITDA to include 49.9% of Tshipi EBITDA - as opposed to 49.9% share of Tshipi profit (NPAT) that was presented in the prospectus. On this basis, we now show a forecast adjusted EBITDA for JMS of \$221M for FY19e vs \$147M previously.
- No impact on earnings, cash flow, or valuation. It is important to note that our restatement of JMS' EBITDA is only cosmetic, there being no changes to our forecast NPAT, EPS, and cash flows for both JMS and Tshipi, nor to our valuation of both JMS and Tshipi. These are all underpinned by our forecasts of Tshipi's EBITDA, which remain unchanged.

Earnings and Valuation:

- No changes to earnings forecasts or valuation.

Recommendation:

- We maintain our Buy recommendation and 12-month price target of \$0.64/share based on our DCF (NPV₁₀) valuation.
- Catalysts for the share price include continued generation of earnings; receipt of Tshipi distributions; payment of dividends and/or share buyback by JMS.
